

LINCOLN ♦ MERCURY ♦ VOLVO

To Whom It May Concern:

My family has been in the automotive business for 59 years. We have always been very cost conscious and are proud of our expense control efforts. We frankly were pleasantly surprised when Lewis & Associates was able to analyze and uncover a few overhead expense items that when implemented had a very positive effect on our bottom line.

In today's low margin world, any new or different procedures we can take to positively impact our profits, is welcome. We're very pleased with Lewis & Associates' professionalism and would encourage any company to allow their staff to view its cost and cash management systems. There is no risk or harm to your business and their efforts could potentially add substantial dollars to your bottom line.

Should you have any questions, please do not hesitate to give me a call.

Sincerely,
